Town. Apples, Peaches, Watermelons, Squashes, and all kinds of fruits and vegetables at Curtis' market.

The arrivals Registered at the Hotel House in the month of August number 577.

Bradford Brass Band will give a grand concert at Town Hall on second evening of the Fair, 17th.

Doc' Welton has bought the place on Pleasant St., and moved into the village this Fall.

C. Barrett drew into town on Friday, with a four horse team, a lot of copper ore, weighing 10445 lbs. gross.

A party of eight went from here to Woodstock last week, enjoying the very much. The evening and morning spent at the top house was beautiful, the atmosphere being clear. The prospect from here did to fully equal that from the Mt. Washington.

Among the guests of our village past week, we notice Mr. John N. Esq., of New York, who just returned from a visit to Europe, and is now paying his 6th visit of respect and gratitude to the town of the late Capt. B. Andrews, who rescued him from a watery grave.

PERSONAL.—We are pleased to David Blakely Esq., of the New York Evening Post, and J. B. Esq., of New York, who are in our village, in Syracuse, N. Y., who are visiting friends in our village.

SELECT SCHOOL.—Miss Sarah J. is teaching a select school in the brick school-house. She has quite a number of scholars, and is doing good success.

On Wednesday afternoon of this week, quite an unfortunate affair occurred on one of the cross streets in village. As Mr. Moses Gaffney was moving his household goods to his present residence, a large load was upset, demolishing many of his treasures. Fates content, load No. 2 shared the same, and amid the ruins of broken crockery, carefully prepared sweetmeats, &c., Mr. G. looked quite discouraged. He has the sympathy and best wishes of his neighbors.

NEWBURY.—The tableaux given the guests of the Spring Hotel, lately, were completely successful. The pictures "Bo Peep," "Little Riding Hood," "Artist's Dream," &c., were very fine, and it is hard to believe that living beings were within the things instead of painted canvases. The "Gipsy Camp" with its roiling smoking kettles, swarthy men, fortune telling, croons, was well received. "Going to London in a Wife" caused much merriment. "Love's Surprise" with little George Chamberlin as Cupid, was marvellous. It was an elegant entertainment, held in the dining room of the Hotel, and gotten up by the guests of New York, Boston and Springfield.

S. A. Kendall has a piece of land, which has been recently purchased at an expense of nearly thousand dollars, will be an attractive place for worship, as such should.

WEST NEWBURY.—The Union Church, which has been recently purchased at an expense of nearly thousand dollars, will be an attractive place for worship, as such should.

The re-dedication of the Union Church House in West Newbury will take place on Thursday, P. M. 2 o'clock, Sept. 11th.

Some section hands on the Passumpsic railroad at Fairlee, recently killed a striped snake, measuring one and three quarters feet, containing seventy-six small snakes, arising from three to six inches, in a good running order.

CHELSEA.—Croquet is the rage of Chelsea common. The epidemic kills Messrs. Hebard, Corwin, Hich, Hyde, Hood, Townsend, Wood, Clark and others.

EAST CORINTH.—At the re-union of the family of Wilby Corliss at old homestead on the 23 of August, there were present 5 children and 19 grandchildren; three were dead. A large concourse of friends and neighbors assembled, and the day passed very pleasantly. The church and Washington Bands furnished excellent music for the occasion. It was the seventeenth birthday of Myra Little, who, with other grandchildren, dighted an audience with select readings and declamations. The services closed with a prayer by Rev. Mr. Finch.

The whistles on several of the Passumpsic locomotives have been changed to a higher key. It is feared that they are much more easily distinguished from the roar of the train, by the brakeman, than the heavier common kind. These whistles are quite common on Western roads.

Supt. Parker of the Passumpsic R.R. has issued an order against egg-smashers. We should blame him if he issued another first five-story, double-tenement house.

The St. Albans Messenger states that it is rumored that the Central Vermont Railroad Co. have secured control of the Portland & Ogdensburg Railroad.

MONTPELIER.—A terrible affair occurred lately in the trimming room of the Montpelier Mfg. Co. Albert N. Daniels, one of the workmen, entered the room in which Miss Carrie Demmon was working, and shot her, inflicting a serious wound, and immediately afterward shot and killed himself. It is now thought that Daniels was insane. He has been paying attention to Miss Demmon for some time, but no trouble is known to have arisen between them.

Monday of last week Davis Tucker of Bristol and Noble Howe of Tunbridge, aged respectively 82 and 62 years, went to Chelsea, and called on Elder Herrick to get united in the bonds of matrimony. The Elder asked for their certificate, but alas, that necessary document had been forgotten. Mr. Tucker went to Tunbridge, Miss Howe's native place, but failed to procure the desired paper. The next morning he wrote to Bristol, and anxiously awaited the return mail. No answer came, and after waiting till Saturday, the disappointed lovers returned to Tunbridge in despair, their only consolation being that as they are young they can afford to wait.

We are grieved to learn of the death of John Syng Dorsey Taylor, late one of the editors & proprietors of the St. Albans Messenger, which occurred the 21st of last month. Mr. Taylor was a native of Shelburne, and a graduate from the University of Vermont. He was a man of high personal character, fine literary tastes, and possessed many genial qualities.

One half of the interest in the Vermont Phoenix, published at Brattleboro, has been purchased by Olin L. French, of Keene, N. H., recently publisher of the Keene Sentinel. Mr. French is the retiring member of the firm of Prouty & Steadman, who have owned the Phoenix. Mr. French will now assume with Mr. Steadman the joint editorial management of that paper.

The great success of the recent meeting of Vermont soldiers has inspired the Massachusetts soldiers to organize a similar reunion of the soldiers sent out by Mass. during the war. The preliminary steps were taken at the recent annual meeting at Springfield, of the 34th Regiment Association.

L. J. McIndoe, of the Vermont Journal, with his wife, 2 daughters and son Robert, will leave Windsor on the first of November for California, where he intends to spend the winter. Arrangements have been made with the Clarendon Manufacturing Co. for a supply of paper during his absence. The subscription list will be under the care of Rev. David McIndoe and the editorial department run by the shears of Mr. Frank Walker.

Six sisters, daughters of Luther Pike of Waterford, one of the first settlers of the town, recently made a visit at their old home, enjoyed a social time and a rich repast, in the room where they were all born, and on the same old cross-legged table on which they took their first meals. The oldest of the sisters is 76 and the youngest 55. They are all farmers' wives, in the enjoyment of good health, and are the proud mothers of forty children. Four brothers in the same family are still living.—Union.

West Brattleboro people feel a pride in the machine which does service in its fire department. It is a tub of such small dimension, as to almost create a smile of derision when it takes its place with others in a parade, but at the recent fireman's muster at Bennington it made a handsome show of 198 feet and six inches, winning the first prize.

At Richmond, last Monday, the market was about the same as last week. Three hundred boxes of cheese offered and sold at 10 to 11 1/2 cents for farm and dairies, and 12c for choice sage; 150 tubs of butter sold at 25 to 27c for good, choice 28c.

As the mail train, Tuesday morning of last week was going through Walden, the engineer saw a little child get on the track and run toward the train. He immediately reversed and whistled for brakes, and the train slowed so that an elder sister had just time to rescue the little truant.

Parties from Canada are negotiating for a site and water power at Bellows Falls for an establishment for the manufacture of Alpacas, which will require \$400,000 capital and employ 500 hands. A subscription of \$50,000 from the citizens is all that is needed to secure its establishment there.

Myron Stewart of East Clarendon, a brakeman on the Central Vt. R.R., was knocked from a train by a bridge near Boltonville, and killed.

St. JOHNSBURY.—Among the attractions of the County Fair here, Sept. 23-25, is reckoned a balloon ascension by Mr. Allen of Providence, R. I.

William Horton, a clerk in Shaw's insurance office at St. Johnsbury, is a defaulter to the extent of \$200 and has disappeared.

The father of James Fisk, Jr., is building a house at Brattleboro, which, with the grounds, will cost \$15,000.

Re-Union of the Old Eighth.

The Re-union of the 8th Vt. Regt. at White River Junction, Tuesday, was a grand success. There were present one hundred members, and those who knew the warm attachment and strong bond of sympathy existing between its members and their old commander, Col. S. Thomas, will scarcely need be told that it was a very interesting and enjoyable occasion. Gen. Thomas was re-elected President, with three Vice Presidents; Dr. Ferrin of Essex was elected Secretary and Treasurer; Father Blake, Chaplain; J. B. Mead, F. E. Smith and W. W. Lynde, Executive Committee. It was decided to hold the next meeting in two years.

To attend this re-union members of the old regiment had come from Louisiana, South Carolina, Illinois, and other distant States, showing the interest felt to see again the faces of their old comrades.

Songs, camp fire stories, and reminiscences succeeded each other for three hours, and no time was allowed to go to waste. Some sharp word firing was indulged in as the memories became freshened in regard to camp occurrences. And our good old Father Blake, flier, drummer, nurse and chaplain, gave proof positive that he had neither forgotten to blow, beat, talk or pray. At ten o'clock they sat down to an elegant banquet, spread by nine hosts of the Junction House.

Most happy speeches were made by Col. Thomas, Col. Mead, Dillingham, Dutton, Major Barstow, Capt. Lynde, and others, but the grand treat of the evening was "The Poem" by Capt. George Carpenter, of Chicago. This was most clearly written, and read, and presented both the serious and the comic side of army life. The old comrades will long remember Capt. Carpenter's felicitous recitations of ever-to-be remembered occurrences, and characteristics of life in the South.

The Bradford Brass Band was in attendance and gave fine music for the occasion.

One thing we deeply regretted, not a representative of the press was present.—Watchman.

David Simpson, the Greensboro liquor agent, who sold Snow, the murderer of the pedlar at Walden, the liquor that made him drunk, had all his property attached at the instance of the widow of Stanton. She puts her damage at \$10,000.

The Rutland Globe in speaking of a late postal decision says: The department informs the public that postal cards cannot be sent at the ordinary rate when written over the side intended for the address. A person may compress Webster's unabridged on the other side, if it lies within his power to do so, and it goes for a cent; but a single word on the address side subjects the card to 3 cent postage. The department is great on special "pits of the law," and hereafter the public may wonder at nothing which emanates from it.

An unknown man sleeping on the track was run over by the cars at 2 o'clock, Monday morning, near Georgia Station. He died at three o'clock in the afternoon. He is believed to have been a sailor named J. H. Levery, and was a brother of the commissioner of streets of Bridgeport, Conn.

BROOKFIELD.—A strange mortality has afflicted the hogs in this town. One man has lost ten. The cause is a mystery, and indeed the disease is not fully understood.

A STORY OF THE LATE "WAR."—We couldn't have believed it without excellent authority, but they say it is true that an officer of the Vermont Regt., after having been introduced to Gen. Robinson at the Rutland reunion, called up half a dozen of his friends two or three times over and introduced them to him as Gen. Doubleday. It was a sad case of mistaken identity and there is no way of accounting for it except on the theory that he must have smelt the breath of a soda fountain and not long afterward saw the inside of the jail. But speaking of that reminds us of a very considerate act by Hon. M. G. Evans, Municipal Judge of Rutland. When this man, the only prisoner captured from the reunion forces during the campaign, was taken before him, the Judge quipped benignly through his spectacles and said, "You got drunk, didn't you?" "Yes sir, I confess I did," I well, you came here to celebrate, I suppose—you are one of the soldiers, aren't you?" "Yes, your honor, but I claim nothing on that account. Well, sir, law or no law, I feel more like thanking you for what you once did than for what you have now done."—St. Albans Messenger.

WOULD LIKE THE MONEY.—One John T. Drew, of not very savory reputation at Montpelier, was at Barton once upon a time when they were raising money to pay the Congregational preacher there, and with ostentatious liberality subscribed \$30, telling those having the matter in charge that they might rely on that amount from him every year. Now the Congregational church and society at Barton would like the original \$30 subscription, which has never yet been paid, say nothing about the subsequent thirty dollars they might rely on him for.—Argus.

CARBOLIC SALVE.

The important discovery of the CARBOLIC ACID as a CLEANSING, PURIFYING, and HEALING Agent is one of the most remarkable results of modern medical research. During the late civil war it was extensively used in the Hospitals, and was found to be not only a thorough disinfectant, but also the most wonderful and speedy HEALING REMEDY ever known.

It is now presented in a scientific combination with other soothing and healing agencies, in the form of a SALVE; and, having been already used in numerous cases with most satisfactory and beneficial results, we have no hesitation in offering it to the public as the most certain, rapid, and effectual remedy for all Sores and Ulcers, no matter of what kind, and for Burns, Cuts, Wounds, and every ABRASION OF SKIN or FLESH, and for Skin diseases generally.

Sold by all Druggists. Price 25 cents.

Ayer's Cherry Pectoral.

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are so important as that which has enabled us to mankind this most fatal remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Ayer's Cherry Pectoral will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and survives the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affection, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defense; and it is untrue to say without it. As a safeguard to children, and the decrepit, it is invaluable. It is a remedy of the most reliable character, and when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no root or toll is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues of the best exhibited, and capable of producing a cure as memorable as the greatest it has ever effected.

Ayer's Cathartic Pills.

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild, pleasant, and reliable purgative, being purely vegetable, and containing no mercury or mineral whatever. Much serious sickness and suffering is prevented by their use; and every family should have them on hand for their protection and relief, when required. Long experience has proven them to be a safe, sure, and best of all the Pills with which the market abounds. By their occasional use, the blood is purified, the corrupt humors and the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pills, and stimulated into action. This important change is changed into health, the value of which, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their regular use makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or sleep, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Cure, and for the following complaints, which these Pills rapidly cure—

For Dyspepsia or Indigestion, Loss of Appetite, and Stomachic Disorders, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaint and its various symptoms, Bilious Headache, Sick Headache, Jaundice, or Green Sickness, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Pains of the Heart, Pain in the Side, Back, and Limbs, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purgative.

For Suppression, a large dose should be taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and removing effect on the digestive apparatus.

PREPARED BY Dr. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A. FOR SALE BY ALL DRUGGISTS EVERYWHERE.
